5. In April 1907 the prayer of the hospital authorities to include in alp an area of land adjoining the hospital was declined but on a further representation (2) Govt sanctioned the grant of the land free of cost, to be enclosed by a compound wall for putting up which permission had been granted in May 1907 (3)

6 The notifications clearly laid down that no new buildings or extensions of existing ones shall be erected without the express previous sanction of Govt.

7. If the recommendation is to be sanctioned, it is a point for consideration as to whether the proposed construction will in any way inconvenience or affect prejudicially the interests of other buildings in the locality

I have carefully gone over the grounds & studied everything in detail. Sanctioning the proposed extension indicated by a blue line boundary by me should not be satisfactory.

Even as it is now there is no satisfactory arrangement for proper drainage of the ground in front of the Chapel. Addition of a Refectory & a Pantry room as proposed will make the place too congested. I would like to see extension made towards the North & in a line with the existing Teachers rooms. There is any amount of space available for this purpose.

The sanitary health of the place leaves a great deal to be desired. Dr. Bhore or Dr. D'Cruz our Engineers may be consulted & the Satisfactory arrangement from both points of view arrived at. Till then I would not recommend permission being granted for the extension as now proposed.

27 The reconstruction of quarters for the Lady Superior and Sisters is proposed on the site of the existing "Mothers' Quarters".

28 This and the addition of another ward or Infirmary are in an inconspicuous portion of the compound, not facing any of the public thoroughfares and the elevation proposed is suitable for such buildings. Only the faces of the old Nurses' Quarters and the proposed new block for the Sisters having to be in one plane, the combined structure will run skew to the chapel face and the Hospital buildings. The place can be kept in a sanitary condition by proper attention to drainage &c.

29 This cannot be helped and is permissible in French methods of construction.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore

Sir,

I have the honor to forward herewith a copy of an application dated the 10th instant, from the Lady Superior of the St Martha's Hospital for permission to effect certain alterations and additions to the existing buildings in the Hospital premises together with a sketch showing the same, and to request that you will be so good as to obtain special sanction thereto, as the Hospital is situated within the area in which the erection of any new buildings, or the alteration of existing ones is prohibited under Government Notification No 769 R.F 55 dated the 2nd July 1892

2

2 As the proposed alterations are intended to be carried out with a view to increase the present accommodation for the sisters so as to secure more light and ventilation etc, and they tend to improve the appearance of the Hospital buildings ~~and~~ there is ~~therefore~~ no objection to the permission sought for being granted

I have the honor to be

---

Owing to the constant increase of both Out and In-door patients who flock daily to our Hospital, we were obliged to increase the number of Sisters also, to manage the establishment and tend to the sick. The consequence is, that we find our present house much too small and insufficiently airy, and have therefore decided to errect more spacious buildings for our Community, the plan, of which I beg to forward herewith

Your kind permission is solicited at an early date the buildings so urgently needed may be constructed with the least possible delay
